Figure it our for yourself, my lad,
You've all that the greatest of men have had,
Two arms, two hands, two legs, two eyes
And brain to use if you would be wise.
With this equipment they all began,
So start for the top and say, **"I can."**

Look them over, the wise and great,
They take their food from a common plate,
And similar knives and forks they use,
With similar laces they tie their shoes,
The world considers them brave and smart,
But you've all they had when they made their start.

You can triumph and come to skill,
You can be great if you only will,
You're well equipped for what fight you choose,
You have legs and arms and a brain to use,
And the man who has risen great deeds to do,
Began his life no more than you.

You are the handicap you must face,
You are the one who must choose your place,
You must say where you want to go,
How much you will study the truth to know.
God has equipped you for life, but He
Lets **you** decide what you want to be.

Courage must come from the soul within
The man must furnish the will to win.
So figure it out for yourself, my lad,
You were born with all that the great have had,
With your equipment they all began
Get hold of yourself, and say: **"I CAN"**

Edgar Guest

This poem was given to Mark Studner by Joan Brosten Schulman.

On God

How do I know God exists?
You tell me, "until you can **see** Him,
You won't believe."
How do you know the wind exists?
Do you **see** it?
No, you only **see** the **results**
of what it can do.
Can you not also **see** the beauty
of all the things God has done?
You say, "but I can **feel** the wind."
And I say to you,
"Also can I **feel** God."
When I ask to be filled
with His love and strength
I feel a warm glow
Rising inside my body
And a surge of energy.
It is good!
I feel His aura of protection
Riding beside me in a plane, a car.
You say, "but I **hear** the wind."
And I say to you, "God speaks every day,
But most of us are too busy to listen."
He shows us a kindness we could do
For some unhappy or less fortunate person
And we close ourselves off, not hearing.
And then, we blindly say,
"How do I know God exists?"

GRADUATION MESSAGE

How little it takes to please a child — a pan and spoon — the most simple toy — an empty box. But all too soon that easily satisfied child becomes a disgruntled teenager and then, an adult.

We take so much that life offers for granted. Most people's waking moments seem to be filled with constant thoughts of being treated unfairly, taken advantage of, exploited. They become injustice collectors never making the effort to look around and appreciate what surrounds us — the warmth of someone loving us — the comfort of a deep friendship — the concern of our parents who care about us.

We fail to see a rainbow, a glorious sunset, the still of the morning just before the sunrise bursts. We never appreciate a work of art or the exhilaration of glorious music, for we become too preoccupied with feeling sorry for ourselves and dwelling on tiny misfortunes. We forfeit the enjoyment of pleasure and joy that surrounds us.

There is so much to savor — the excitement of waking up each morning and never knowing what wonders and mysteries the day will hold — our child's first step — his growing up and sharing money he earns — his caring that he succeeds, because he suddenly realizes how much we've given and how long we've stood by him — so many rewards and so much beauty each day.

How can we lose enthusiasm for life? Don't you think that even our creation is a miracle? To be blessed with good health and the opportunity to show caring and concern for others is the greatest gift of all. Leave yourself open to receive the surge of positiveness from your Creator.

Don't take the exquisite gift of life for granted. Take time to enjoy it, to taste it, to see it. Go forward, not backward. Have a love affair with life.

Dear Mark,

Figure it out for yourself, my lad,
You've all that the greatest of men have had,
Two arms, two hands, two legs, two eyes
And a brain to use if you would be wise.
With this equipment they all began,
So start from the top and say, "I CAN."

Courage must come from the soul within
The man must furnish the will to win.
So figure it out for yourself, my lad,
You were born with all that great have had,
With your equipment they all began
Get hold of yourself, and say "I CAN."

Finding a special place
Sharing it with a friend
Buying a special outfit
And giving it out to lend

Reminiscing about fond memories
The fun times that you've had
Laughing about the funny times
And crying over the sad

Interesting conversations
And discussions on the phone
Sharing your deepest secrets
That are supposedly unknown

Exciting news you love to share
especially when you know
There is someone there
Who really cares

Noticing new faces
And taking in the sights
Having someone to be with
And go out on Friday nights

Driving your brand new cars
And growing up too soon
Going to school in September
And getting out in June

Sadly graduating
Leaving memories behind
But only until tomorrow
Where there's many more to find

Teacher's Prayer

I want to teach my students how
To live this life on earth ~
To face its struggles and its strife
And how to improve their worth ~
Not just the lesson in a book
On how the river flows ~
But how to choose the proper path
Wherever they may go ~
To understand eternal truth
And know the right from wrong ~
And gather all the beauty of
A flower and a song ~
For if I help the world to grow
In Wisdom and in grace ~
Then I shall feel that I have won
And I have filled my place ~
And so I ask your guidance, God
That I may do my part ~
For character and confidence
And happiness of heart.

ON STAGE

Watch for opening soon
of Apocalypse II
by Bob Morrow and Patrick
Francis

I looked across the field, not a field but a sea of flowers, yellow, glowing, with dew dripping off the brightest few; elevating them to a plateau of beauty and peacefulness equal to the emotions I feel in my heart at this same time.

Suddenly the mood is broken by footsteps. It is difficult for me to turn my head, as my captivation with nature remains strong. I finally give in and become aware that crying and tears and pain have invaded my thoughts of tranquility.

All eyes swollen or clouded turn toward a man, a speaker, a leader. He reminds me of my father, but it seems faces don't mean anything.

He speaks, but words are silent.

The people cry; I can't feel their tears.

There is unity; I am not united.

The footsteps begin again and the procession makes its way towards a casket. I instinctively fall in line with the rest, but I know I am an outsider.

The line moves quickly, a hint of sunlight shines through the clouds and a sparkle glistens off the pink satin resting place a few feet away. My turn comes, and I walk slowly toward the smooth mahogony enclosure . . .

. . . Quietly I look up across the field, not a field but a sea of flowers, yellow, glowing . . .

— MEMORIES —

By: Toni Glasser

When I look back
On my high school years
I remember all the joys
And tears

I remember staring
At the boy across the class
I remember all the notes
My friends and I would pass

I remember cramming
For a geometry test
And panicking all day
I remember all the tardys
And having detention to make me pay

I laugh when I think
About the good times that I had
I cry when I realize
They're only memories and I feel bad

I remember having a shoulder
To lend to my best friend
And I know my heart is empty
Because school has come to an end

When I think about
The quarrels and the feuds that would go on
They all seem to fade away
And the good times stand out strong

It's time to leave this year
It's time to go out to find
It's time to become an adult
And leave a teenager behind

Greg Otero's 7th and 8th grade science classes went on a fiel trip to "The Tree People." "The Tree People" is a non-pro organization that is working towards the planting of the L.A Urban Forest (one million trees planted in Los Angeles by th 1984 Olympics).

On our field trip we learned all about trees and how they cou improve the quality of the life in the Los Angeles Basin. W then helped the Tree People pot some seedlings, and eac student received a baby tree to bring home and plant; thereb contributing to the Urban Forest.

Art Field Trips

The Art Class part participated in two exciting workshops at the L Angeles County Museum of Art.

The first one was a sculpture lab, the second, a printmaking la First, the student had the opportunity to view works of renowne sculptors and printers. Next, they were able to experiment with t basic techniques of each media. After the workshops we experience a variety of cuisines at Farmer's Market.

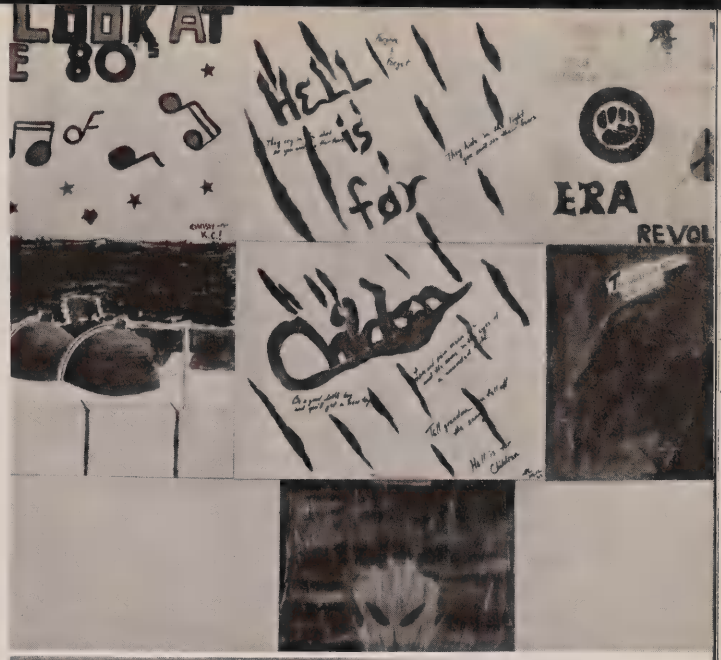
INTERIM FEB. 1-5

Interim is a program designed to separate the two academic semesters with a week of courses that can be artistic, athletic or academic in nature. This "breather" from the rigors of academia tends to create a rejuvenation in both students and instructors, presents the learning process in another light and affords the opportunity to acquire knowledge that would otherwise be difficult to incorporate into a curriculum. This week also provides the ideal time to take special field trips.

Among the courses offered on campus were History of the 70's, American Popular Music, Yoga, Fashion Modeling, Meditation, Needlepoint, Oil and Acrylics, Printmaking, Clay Sculpture, Mural Creation, Frisbee and Dancercise. In addition, one group took advantage of the time to survey a variety of films including "Reds," "Chariots of Fire," and "On Golden Pond." Another group conducted a restaurant survey and sampled a variety of cuisines at "Art's Deli," "El Torito," "La Cafe," "Adam's Rib," "Seafood Broiler," and "Belgian Waffle."

Those students who elected to participate in week-long field trips chose among the following: "Discover California," horse-back riding, a ski trip to Mammouth, "Jeff's Junket," which included deep-sea fishing, hiking, and trips to Marineland, Big Bear and San Diego, and Jim's San Diego trip.

A terrific time was had by all.



INTERIM EXTRAVAGANZA

Fourteen Cal Prep students and their teacher, Jeff Berkowitz, participated in a week long program of fun-filled field trips during Interim week, February 1 thru February 5. Everyone boarded a 26-foot Winnebago motor home on Sunday night and drove to Oxnard's CISCO Sportfishing to board a privately chartered 45-foot fishing vessel, the Sea Jay, for the next morning's fishing cruise. The trip was somewhat turbulent, but the weather and fishing conditions couldn't have been better. Although a few charters got a little green, we were able to land 160-170 rock cod and assorted rockfish brought up from 500 feet below the surface about 12 miles off the coast of Santa Barbara. All the fish were filleted on board and most of the students enjoyed fresh fish that night for dinner.

On Tuesday morning, we caravaned in our motor home to Placerita State and County Park in Newhall. After observing a group of exhibits dealing with the canyon's fauna and flora, the students were treated to a close encounter with a king snake and a golden ferret by the Nature Center's director. After that, the students proceeded on a long, grueling 5-6 mile hike deep into the Placerita reserve finally ending up about a mile above sea level overlooking the entire Santa Clarita Valley.

On Wednesday, the students were treated to Project Discovery, an educational presentation at Marineland of the Pacific. Under beautiful skies, we enjoyed shows of grey whales, sea lions, dolphins, killer whales, and exotic birds, not to mention the other fine exhibits and attractions the park had to offer.

On Thursday, everyone showed up early so we could catch a show at San Diego Balboa Park's Reuben H. Fleet Space Theatre and Science Center. In addition, the group entertained itself at the Natural History Museum, the Aerospace Museum and the Museum of Man. Again the weather was beautiful all day long and the group was able to sample some of San Diego's fine local cooking for lunch.

The crowning achievement of the week was a trip to Snow Summit ski resort in Big Bear. Almost all of the students participated in at least learning how to ski. The conditions were superb again, and everyone skied all day on 4 feet of clean, packed powder. Everyone helped each other. Finally, after a long drive home, we had a final dinner at Numero Uno.

Everyone who participated had lots of fun and has memories of experiences that will linger on forever.

The Interim Ski Trip to Mammoth Mountain was wall to wall sleeping bags, eating in shifts, lots of sun and snow. A great time was had by all, especially on the top of the mountain.

Discover California III

DO YOU REMEMBER . . . The old woman with two ducks. A pair of harmonizing amplifiers. A tent with no poles. Spaghetti with black garlic bread. I don't want to sleep by the door. Blackbird sitting on a telephone wire. Shark attack. You're dead. How many say that's B.S.? If you'll do my dishes tonite, I'll do yours tomorrow. Who's back there in the bunks? What happened to the rest of the chili and the homemade chicken soup? Happy Valley School. Hanging around the skating rink. Macaroni and cheese dining. Anybody see any forks? Duck — taped tent. I think they took the liquid soap. Who's behind the big rock overlooking Mono Lake. John — will you and Julie get off that table. What did those four guys from the other camp want? I slept too close to the heaters. National Lampoon. I wouldn't mix that with 7-Up. Denny's-Tahoe. A free session to a marriage counselor. We're going to use two pieces of rope. But, why do you have to get home in the early afternoon? See that big sand dune — that's where we take the picture. Are they still sitting there? I think two are coming this way. Use your boot and my shoe. Don't say a word. We're about out of gas.

And to Julie, Tara, Kelly, Homa, Mark, Vince, Peter, John — until we're on the road again . . . Pam and Tom.

For sure! Totally! and I can relate!

UNICORN DAY

Unicorn Day on March 12th was a school spirit event. Slaves were sold to masters who paid up to 55 dollars each slave! The seniors earned over $350 with this fund raiser. This event was the largest fund raiser that Cal Prep had this year! Good goin' guys!!

FOOTPRINTS IN THE SAND

One night a man had a dream. He dreamed he was walking along the beach with the Lord. Across the sky flashed scenes from his life. In each scene he noticed two sets of footprints in the sand — one belonging to him and the other to the Lord.

When the last scene flashed before him, he looked back at the footprints and noticed that many times along the path there was only one set of footprints in the sand. He also noticed that this happened during the lowest and saddest times in his life.

This really bothered him, so he questioned the Lord: "Lord, you said that once I decided to follow you, you would walk with me all the way, but I noticed that during the most troublesome times of my life there was only one set of footprints. I don't understand why, when I needed you the most, you deserted me."

The Lord replied, "My precious child, I would never desert you. During your times of trial and suffering, when you saw only one set of footprints, it was then that I carried you."

Mineral activators

Odyssey is rich. Its mineral activators allow the other valuable ingredients — the proteins, the nucleic acids, and the vitamins — to be absorbed more quickly, lastingly and totally into your hair . . . allowing Odyssey to condition and moisturize more thoroughly than ever before possible. Odyssey restores lost emollients, elasticity, and sheen. Leaves hair looking younger, healthier and more naturally beautiful.
